

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M5036 Graduate Diploma of Clinical Trials

Semester 1 intake. Full-time

Year 1 Semester 1	MPH5277 Practical data management	Clinical trial fundamentals (Microcredential)	MPH5268 Financial management in health care	MPH5267 Principles of health care quality improvement
Year 1 Semester 2	MPH5283 Ethics, good research practice and practical research methods	Introduction to evidence-based practice and research methods (Microcredential)	MPH5214 Demographic methods	Management fundamentals for clinical trials (Microcredential)

Semester 1 intake. Part-time

Year 1 Semester 1	MPH5277 Practical data management	Clinical trial fundamentals (Microcredential)
Year 1 Semester 2	MPH5283 Ethics, good research practice and practical research methods	Introduction to evidence-based practice and research methods (Microcredential)
Year 2 Semester 1	MPH5268 Financial management in health care	MPH5267 Principles of health care quality improvement
Year 2 Semester 2	MPH5214 Demographic methods	Management fundamentals for clinical trials (Microcredential)

Monash unit
Microcredential (assessed short course)

IMPORTANT INFORMATION

- It is possible to complete the required microcredentials prior to enrolment in the Graduate Diploma and receive credit on entry. However, completion of the microcredentials does not guarantee entry to the Graduate Diploma.
- Part-time students please be aware that your enrolment in the Graduate Diploma is maintained via enrolment in units. If you choose to enroll only in a microcredential during a particular semester, you must apply for [course intermission](#) (study leave) to keep your place in the Graduate Diploma.
