

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health

Entry point	Coursemaps commence on:
Entry level 1 96 points comprising Part A, Part B, Part C and Part D.	Page 2
Entry level 2 72 points comprising Part B, Part C and Part D.	Page 22
Entry level 3 48 points comprising Part B and 24 credit points from Part C. The Part C units must include MPH5289 and 18 credit points chosen from core units within any specialisation.	Page 35

Notes:

- All students commence with Part B to complete the core units as a cohort.
- The research specialisation is only available part-time at entry level 2.
- The only specialisation available at entry level 3 is Public Health (general).
- Refer to the last page of this coursemap for the list of Part A units.
- Refer to the course handbook entry for a full list of Part D units.

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

MPH – Level ONE entry – 96 credit points

M6024 - Master of Public Health (96 credit points) - Full-time – Semester ONE Master of Public Health (Epidemiology)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	Part A or D unit	Part A unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	MPH5218 Infectious diseases: epidemiology & prevention	Part A unit
Year 2 Sem1	MPH5200 Regression methods for epidemiology OR MPH5270 Advanced statistical methods for clinical research (Sem2) (Prereqs: Credit average in MPH5040 + MPH5041)	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	MPH5236 Clinical trials (Prereqs: MPH5040 + MPH5041)	Part A or D unit
Year 2 Sem2	Recommended Part D unit: One of MPH5214 Demography methods or MPH5270	Part A or D unit	Part A or D unit	MPH5289 Professional practice development

	Part A. Discipline studies (24 points)
	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Notes:

- Refer to the last page of this coursemap for the list of Part A units.
- Refer to the course handbook entry for a full list of Part D units.

M6024 - Master of Public Health (96 credit points) - Part-time – Semester ONE **Master of Public Health (Epidemiology)**

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	Part A unit	MPH5236 Clinical trials (Prereqs: MPH5040 + MPH5041)
Year 2 Sem2	MPH5218 Infectious diseases: epidemiology & prevention	Part A unit
Year 3 Sem1	MPH5200 Regression methods for epidemiology OR MPH5270 Advanced statistical methods for clinical research (Sem2) (Prereqs: Credit average in MPH5040 + MPH5041)	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)
Year 3 Sem2	Recommended Part D unit: One of MPH5214 Demography methods or MPH5270	Part A or D unit
Year 4 Sem1	Part A or D unit	Part A or D unit
Year 4 Sem2	Part A or D unit	MPH5289 Professional practice development

	Part A. Discipline studies (24 points)
	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Notes:

- Refer to the last page of this coursemap for the list of Part A units.
- Refer to the course handbook entry for a full list of Part D units.

M6024 - Master of Public Health (96 credit points) - Full-time – Semester ONE

Master of Public Health (Global and Planetary Health)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	Part A unit	Part A or D unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	*One of: MPH5218 Infectious diseases: epidemiology (Sem 2) MPH5272 Principles of health systems (Sem 2) MPH5255 Health and human rights (Sem 1)	MPH5042 Planetary health
Year 2 Sem1	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	MPH5252 Global health care delivery: principles & challenges	Part A or D unit	Part A or D unit
Year 2 Sem2	Part A or D unit	Part A or D unit	Part A or D unit	MPH5289 Professional practice development

	Part A. Discipline studies (24 points)
	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Notes:

- *You may complete one unit only from MPH5255, MPH5218 or MPH5272 in Part C, you may take the other units in Part D if you wish. MPH5218 and MPH5272 are offered in semester 2, and MPH5255 is offered in semester 1.
- Refer to the last page of this coursemap for the list of Part A units.
- Refer to the course handbook entry for a full list of Part D units.

- Refer to the course handbook entry for a full list of Part D units.

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (96 credit points) - Full-time – Semester ONE

Master of Public Health (General)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	Part A unit	Part A, C or D unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	Part A unit	Part A, C or D unit
Year 2 Sem1	Part A, C or D unit	Part A, C or D unit	Part A, C or D unit	Part A, C or D unit
Year 2 Sem2	Part A, C or D unit	Part A, C or D unit	Part A, C or D unit	MPH5289 Professional practice development

M6024 - Master of Public Health (96 credit points) - Part-time – Semester ONE

Master of Public Health (General)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	Part A unit	Part A, C or D unit
Year 2 Sem2	Part A unit	Part A, C or D unit
Year 3 Sem1	Part A, C or D unit	Part A, C or D unit
Year 3 Sem2	Part A, C or D unit	Part A, C or D unit
Year 4 Sem1	Part A, C or D unit	Part A, C or D unit
Year 4 Sem2	Part A, C or D unit	MPH5289 Professional practice development

	Part A. Discipline studies (24 points)
	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Notes:

- Refer to the last page of this coursemap for the list of Part A units.
- Refer to the course handbook entry for a full list of Part C and Part D units.

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (96 credit points) - Full-time – Semester TWO

Master of Public Health (General)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5288 Public health fundamentals	Part A unit
Year 1 Sem 1	MPH5213 Research methods	Part A, C or D unit	Part A, C or D unit	Part A unit
Year 2 Sem2	Part A, C or D unit	Part A, C or D unit	Part A, C or D unit	Part A, C or D unit
Year 2 Sem1	Part A, C or D unit	Part A, C or D unit	Part A, C or D unit	MPH5289 Professional practice development

M6024 - Master of Public Health (96 credit points) - Part-time – Semester TWO

Master of Public Health (General)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem 1	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem2	Part A unit	Part A unit
Year 2 Sem1	Part A, C or D unit	Part A, C or D unit
Year 3 Sem2	Part A, C or D unit	Part A, C or D unit
Year 3 Sem1	Part A, C or D unit	Part A, C or D unit
Year 4 Sem2	Part A, C or D unit	Part A, C or D unit
Year 4 Sem1	Part A, C or D unit	MPH5289 Professional practice development

	Part A. Discipline studies (24 points)
	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Notes:

- Refer to the last page of this coursemap for the list of Part A units.
- Refer to the course handbook entry for a full list of Part C and Part D units.

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (96 credit points) - Full-time – Semester ONE

Master of Public Health (Research)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	Part A unit	Part A or D unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	Part A unit	One of: MPH5215 (sem2 unit) MPH5200 (sem1 unit)
Year 2 Sem1	Part A or D unit	Part A or D unit	MAP5000 Research in advanced health professional practice (12cpts)	
Year 2 Sem2	Part A or D unit	Part A or D unit	MAP5010 Advanced health practice research project (12cpts)	

M6024 - Master of Public Health (96 credit points) - Part-time – Semester ONE

Master of Public Health (Research)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	Part A unit	Part A or D unit
Year 2 Sem2	Part A unit	One of: MPH5215 (sem2 unit) MPH5200 (sem1 unit)
Year 3 Sem1	Part A or D unit	Part A or D unit
Year 3 Sem2	Part A or D unit	Part A or D unit
Year 4 Sem1	MAP5000 Research in advanced health professional practice (12cpts)	
Year 4 Sem2	MAP5010 Advanced health practice research project (12cpts)	

	Part A. Discipline studies (24 points)
	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Notes:

- Refer to the last page of this coursemap for the list of Part A units.
- Refer to the course handbook entry for a full list of Part D units.
- It is highly recommended that a research project be conducted with a principal supervisor located within the School of Public Health and Preventive Medicine. Only in special circumstances will you be permitted to complete a project with a supervisor external to the school, and may include where the project would be undertaken in your current workplace and there is an experienced supervisor/researcher willing and available to supervise you.

MPH – Level two entry – 72 credit points

M6024 - Master of Public Health (72 credit points) - Full-time – Semester ONE

Master of Public Health (Epidemiology)

Note: Students will have to transfer to a general stream if they don't receive a credit average for core units: MPH5040 and MPH5041.

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	Part D unit	Part D unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	MPH5218 Infectious diseases: epidemiology & prevention	One of: MPH5200 Regression methods for epidemiology (sem 1) MPH5270 Advanced statistical methods for clinical research (sem 2) (Prereqs: Credit average in MPH5040 + MPH5041)
Year 2 Sem1	Part D unit	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	MPH5236 Clinical trials (Prereqs: MPH5040 + MPH5041)	MPH5289 Professional practice development

M6024 - Master of Public Health (72 credit points) - Part-time – Semester ONE

Master of Public Health (Epidemiology)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	MPH5236 Clinical trials (Prereqs: MPH5040 + MPH5041)
Year 2 Sem2	MPH5218 Infectious diseases: epidemiology & prevention	Part D unit
Year 3 Sem1	One of: MPH5200 Regression methods for epidemiology (sem 1) MPH5270 Advanced statistical methods for clinical research (sem 2) (Prereqs: Credit average in MPH5040 + MPH5041)	Part D unit
Year 3 Sem2	Part D unit	MPH5289 Professional practice development

Part B. Foundation studies (24 points)
Part C. Specialist core studies (30 points)
Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part D units.

Course progression map for 2027 commencing students

M6024 - Master of Public Health (72 credit points) - Full-time – Semester ONE

Master of Public Health (Global and Planetary Health)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5252 Global health care delivery: principles & challenges	Part D unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	*One of: MPH5218 Infectious diseases: epidemiology MPH5272 Principles of health systems MPH5255 Health and human rights	MPH5042 Planetary health
Year 2 Sem1	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	Part D unit	Part D unit	MPH5289 Professional practice development

M6024 - Master of Public Health (72 credit points) - Part-time – Semester ONE

Master of Public Health (Global and Planetary Health)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	MPH5252 Global health care delivery: principles & challenges
Year 2 Sem2	*One of: MPH5218 Infectious diseases: epidemiology MPH5272 Principles of health systems MPH5255 Health and human rights	MPH5042 Planetary health
Year 3 Sem1	Part D unit	Part D unit
Year 3 Sem2	Part D unit	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Notes:

- *You may complete one unit only from MPH5255, MPH5218 or MPH5272 in Part C, you may take the other units in Part D if you wish. MPH5218 and MPH5272 are offered in semester 2, and MPH5255 is offered in semester 1.
- Refer to the course handbook entry for a full list of Part D units.

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (72 credit points) - Full-time – Semester TWO

Master of Public Health (Global and Planetary Health)

Year 1 Sem 2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5288 Public health fundamentals	*One of: MPH5218 Infectious diseases: epidemiology (Sem 2 unit) MPH5272 Principles of health systems (Sem 2 unit) MPH5255 Health and human rights (Sem 1 unit)
Year 1 Sem1	MPH5213 Research methods	MPH5252 Global health care delivery: principles & challenges	MPH5207 Chronic disease epidemiology & prevention	Part D unit
Year 2 Sem2	MPH5042 Planetary health	Part D unit	Part D unit	MPH5289 Professional practice development

M6024 - Master of Public Health (72 credit points) - Part-time – Semester TWO

Master of Public Health (Global and Planetary Health)

Year 1 Sem 2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem1	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)	MPH5252 Global health care delivery: principles & challenges
Year 2 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	*One of: MPH5218 Infectious diseases: epidemiology (Sem 2 unit) MPH5272 Principles of health systems (Sem 2 unit) MPH5255 Health and human rights (Sem 1 unit)	Part D unit
Year 3 Sem2	MPH5042 Planetary health	Part D unit
Year 3 Sem1	Part D unit	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Notes:

- *You may complete one unit only from MPH5255, MPH5218 or MPH5272 in Part C, you may take the other units in Part D if you wish. MPH5218 and MPH5272 are offered in semester 2, and MPH5255 is offered in semester 1.

M6024 - Master of Public Health (72 credit points) - Full-time – Semester ONE

Master of Public Health (Health Economics)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5268 Financial management in health care	Part D unit
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	MPH5221 Determining value for money in health care	One of: MPH5022 Evaluating public health programs MPH5239 Systematic reviews and meta-analysis (<i>Prereqs: MPH5040 + MPH5041</i>)
Year 2 Sem1	MPH5220 Introductory health economics	Part D unit	Part D unit	MPH5289 Professional practice development

M6024 - Master of Public Health (72 credit points) - Part-time – Semester ONE

Master of Public Health (Health Economics)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	MPH5268 Financial management in health care	MPH5220 Introductory health economics
Year 2 Sem2	MPH5221 Determining value for money in health care	One of: MPH5022 Evaluating public health programs MPH5239 Systematic reviews and meta-analysis (<i>Prereqs: MPH5040 + MPH5041</i>)
Year 3 Sem1	Part D unit	Part D unit
Year 3 Sem2	Part D unit	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part D units.

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (72 credit points) - Full-time – Semester TWO

Master of Public Health (Health Economics)

Year 1 Sem 2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5288 Public health fundamentals	Part D unit
Year 1 Sem 1	MPH5268 Financial management in health care	MPH5220 Introductory health economics	MPH5213 Research methods	Part D unit
Year 2 Sem2	Part D unit	One of: MPH5022 Evaluating public health programs MPH5239 Systematic reviews and meta-analysis (Prereqs: MPH5040 + MPH5041)	MPH5221 Determining value for money in health care	MPH5289 Professional practice development

M6024 - Master of Public Health (72 credit points) - Part-time – Semester TWO

Master of Public Health (Health Economics)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem1	MPH5268 Financial management in health care	MPH5220 Introductory health economics
Year 2 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem 1	Part D unit	Part D unit
Year 3 Sem2	MPH5221 Determining value for money in health care	One of: MPH5022 Evaluating public health programs MPH5239 Systematic reviews and meta-analysis (Prereqs: MPH5040 + MPH5041)
Year 3 Sem1	Part D unit	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part D units.

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (72 credit points) - Full-time – Semester ONE

Master of Public Health (Health Policy)

This specialisation is not an option in this mode as units MPH5265 and MPH5267 don't fit into this course map.

M6024 - Master of Public Health (72 credit points) - Part-time – Semester ONE

Master of Public Health (Health Policy)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	MPH5269 Foundations of health policy	Part D unit
Year 2 Sem2	MPH5272 Principles of health systems	MPH5265 Law for health systems
Year 3 Sem1	Part D unit	Part D unit
Year 3 Sem2	MPH5267 Principles of health care quality improvement	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part D units.

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (72 credit points) - Full-time – Semester TWO

Master of Public Health (Health Policy)

Year 1 Sem 2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5288 Public health fundamentals	MPH5272 Principles of health systems
Year 1 Sem 1	MPH5269 Foundations of health policy	MPH5213 Research methods	Part D unit	Part D unit
Year 2 Sem2	Part D unit	MPH5265 Law for health systems	MPH5267 Principles of health care quality improvement	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part D units.

M6024 - Master of Public Health (72 credit points) - Part-time – Semester TWO

Master of Public Health (Health Policy)

This specialisation is not an option in this mode as units MPH5265 and MPH5267 don't fit into this course map.

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (72 credit points) - Full-time – Semester ONE

Master of Public Health (Health Promotion)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5002 Foundations of health promotion and program planning	Part D unit Recommended: MPH5252 Global health care delivery: principles & challenges
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals	MPH5022 Evaluating public health programs	MPH5218 Infectious diseases: epidemiology & prevention
Year 2 Sem1	Part D unit	Part D unit	MPH5207 Chronic disease epidemiology & prevention	MPH5289 Professional practice development

M6024 - Master of Public Health (72 credit points) - Part-time – Semester ONE

Master of Public Health (Health Promotion)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	MPH5002 Foundations of health promotion and program planning	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)
Year 2 Sem2	MPH5022 Evaluating public health programs	MPH5218 Infectious diseases: epidemiology & prevention
Year 3 Sem1	Part D unit Recommended: MPH5252 Global health care delivery: principles & challenges	Part D unit
Year 3 Sem2	Part D unit Recommended: MPH5223 Social and cultural determinants of health	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part D units.

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (72 credit points) - Full-time – Semester TWO

Master of Public Health (Health Promotion)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5288 Public health fundamentals	MPH5022 Evaluating public health programs
Year 1 Sem 1	MPH5213 Research methods	Part D unit Recommended: MPH5252 Global health care delivery: principles & challenges	MPH5002 Foundations of health promotion and program planning	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)
Year 2 Sem2	Part D unit	Part D unit Recommended: MPH5223 Social and cultural determinants of health	MPH5218 Infectious diseases: epidemiology & prevention	MPH5289 Professional practice development

M6024 - Master of Public Health (72 credit points) - Part-time – Semester TWO

Master of Public Health (Health Promotion)

Year 1 Sem 2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem1	MPH5002 Foundations of health promotion and program planning	MPH5288 Public health fundamentals
Year 2 Sem2	MPH5213 Research methods	Part D unit
Year 2 Sem1	Part D unit	MPH5207 Chronic disease epidemiology & prevention (Prereqs: MPH5040 + MPH5041)
Year 3 Sem2	MPH5022 Evaluating public health programs	MPH5218 Infectious diseases: epidemiology & prevention
Year 3 Sem1	Part D unit	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part D units.

M6024 - Master of Public Health (72 credit points) - Part-time – Semester ONE

Master of Public Health (General)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	Part C unit	Part C unit
Year 2 Sem2	Part C unit	Part C unit
Year 3 Sem1	Part D unit	Part D unit
Year 3 Sem2	Part D unit	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part C and Part D units.

Course progression map for 2027 commencing students

This progression map provides advice on the suitable sequencing of units and guidance on how to plan unit enrolment for each semester of study. It does not substitute for the list of required units as described in the course 'Requirements' section of the [Handbook](#).

M6024 - Master of Public Health (72 credit points) - Full-time – Semester TWO

Master of Public Health (General)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics	MPH5288 Public health fundamentals	Part C unit
Year 1 Sem 1	MPH5213 Research methods	Part C unit	Part C unit	Part C unit
Year 2 Sem2	Part D unit	Part D unit	Part D unit	MPH5289 Professional practice development

M6024 - Master of Public Health (72 credit points) - Part-time – Semester TWO

Master of Public Health (General)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem 1	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem2	Part C unit	Part C unit
Year 2 Sem1	Part C unit	Part C unit
Year 3 Sem2	Part D unit	Part D unit
Year 3 Sem1	Part D unit	MPH5289 Professional practice development

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part C and Part D units.

M6024 - Master of Public Health (72 credit points) - Full-time

Master of Public Health (Research)

The research specialisation is not available for full time enrolment at the 72 credit point entry.

M6024 - Master of Public Health (72 credit points) - Part-time – Semester ONE

Master of Public Health (Research)

Year 1 Sem 1	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem2	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem1	One of: MPH5200 (sem 1 unit) MPH5215 (sem 2 unit)	Part D unit
Year 2 Sem2	Part D unit	Part D unit
Year 3 Sem1	MAP5000 Research in advanced health professional practice (12cpts)	
Year 3 Sem2	MAP5010 Advanced health practice research project (12cpts)	

M6024 - Master of Public Health (72 credit points) - Part-time – Semester TWO

Master of Public Health (Research)

Year 1 Sem2	MPH5040 Introductory epidemiology	MPH5041 Introductory biostatistics
Year 1 Sem 1	MPH5213 Research methods	MPH5288 Public health fundamentals
Year 2 Sem2	One of: MPH5215 (sem 2 unit) MPH5200 (sem 1 unit)	Part D unit
Year 2 Sem1	Part D unit	Part D unit
Year 3 Sem2	MAP5000 Research in advanced health professional practice (12cpts)	
Year 3 Sem1	MAP5010 Advanced health practice research project (12cpts)	

	Part B. Foundation studies (24 points)
	Part C. Specialist core studies (30 points)
	Part D. Specialist elective studies (18 points)

Note:

- Refer to the course handbook entry for a full list of Part D units.
- It is highly recommended that a research project be conducted with a principal supervisor located within the School of Public Health and Preventive Medicine. Only in special circumstances will you be permitted to complete a project with a supervisor external to the school, and may include where the project would be undertaken in your current workplace and there is an experienced supervisor/researcher willing and available to supervise you.
